

AESS Professional Networking and Mentoring Program

The AESS strives to foster the professional growth of its members. Engagement and collaboration within our community is a catalyst for effective integration and professional development of AESS members. The Society recognizes that this important process should not be left to chance. For this reason, we have pioneered a custom Professional Networking and Mentoring Program to connect younger and more experienced AESS members.

Our vision is a flexible international program that is carefully implemented, attentively supported and singularly focused on providing benefits to AESS members.
